ACE Laboratory third in National Dental Awards

Techceram Ltd are delighted to announce that Beaver Dental, one of the 26 Members of their ACE Group of Laboratories came third at a recent National Dental Laboratory Of The Year Award Ceremony, which was held at the Royal Lancaster Hotel, Hyde Park, London, in April. They were nominated by one of their clients, Craig Parker from Chapel Allerton, Leeds, who was recently presented with his own Techceram Approved Dental Practice Award in recognition of his commitment to All-Ceramic Excellence.

Phil believes this recognition was only made possible by the hard work of his team and because they are all fully committed to Techceram's ACE "All-Ceramic Excellence" Concept. The ACE Concept is a patient centred "Quality Controlled Network Loop" which promotes maintenance of and continuous improvement in quality, by means of Techceram's unique Quality Feedback Card System. It also promotes teamwork between the Dental Practice, the ACE Dental Laboratory and the substructure Manufacturer (TTC - Techceram's in-house Dental Laboratory), enabling Techceram to offer a Five Year Guarantee, conditional on the Clinician following the recommended clinical procedure and returning Techceram's Quality Feedback Cards.

A part of the ACE Group, Beaver Dental can offer their Dentists and patients the highest quality all-ceramic restorations currently available in the UK. This enables them to offer a complete choice of all-ceramic restorations including Techceram alumina single unit restorations, and Lava or Cercon precision fitting milled zirconia multiple and single unit restorations.
